

Policies and Procedures

Policies and procedures guide the actions of Western Dakota Technical College so the college operates consistently and intentionally in all matters.

The purpose of this webpage is to ensure the college community has access to clear and understandable policies and procedures. Policies and procedures that are easy to find, read, and understand will help the college accomplish its mission, maintain accountability, provide employees and students with clear and concise guidelines, and describe how the college conducts business.

This website contains the most current approved version of all college policies and their associated procedures and exhibits. This webpage is the only official collection of policies and procedures for Western Dakota Technical College.

Each policy describes the staff position that is the contact for questions about a particular policy. Overall questions about the policy and procedure process can be directed to Kelly Oehlerking, Vice President of Institutional Effectiveness and Student Success.
